RE: Letter of Reference

Bestco Construction (2005) Ltd. would highly recommend Bermingham Foundation Solutions to anyone requiring your services.

We have worked with your firm on several challenging projects and have found the service and commitment to quality and safety to be excellent. These projects include, but are not limited to: the Air Liquide Hamilton 2000 project, several projects for Bunge Hamilton, and most recently the Arts and Science Brewing project on Burlington St in Hamilton.

Most of these projects involved utilizing specialized equipment to work within the confines dictated by the individual site. Several projects required working inside existing buildings with limited access and minimal headroom. Work in the Bunge Hamilton projects had the additional challenge of working within a canola oil processing plant without stopping production.

Bestco Construction (2005) Ltd and our respective clients has been very pleased with Bermingham's consistent ability to deliver projects on time and without incident. We look forward to continuing our working relationship on future projects.

Sincerely,

BESTCO CONSTRUCTION (2005) LTD.

Paul LaFleshe G.S.C.
Project Manager
