July 18, 2008

Attn: Andrew Weltz, P.Eng
Project Manager

Reconstruction of Oxford County Rd. 4 – Construction of New CN Rail Structure

McLean Taylor would like to take this opportunity to thank you for the speed and proficiency which your crews demonstrated while installing 85' long 12X74 H-Piles on the above stated project. Although the schedule was tight, due to the required road closure, your crews arrived on-site on the required date with the intention of delivering a quality product while maintaining our schedule. We look forward to next opportunity to work together.

Scott Schiedel, P.Eng.
Vice President
