Attention: Mr. Andrew Weltz, P.Eng., Project Manager

**RE: Decew Road Bridge**

Dear Sir;

I would like to thank Birmingham for the work completed at the Decew Road Bridge project. There were several challenges Birmingham had to overcome on this project due to existing geotechnical conditions, to mention one in particular would be the installation of the tube/caisson piles at the West pier location. Due to a lack of overburden your team was initiative and built a template to position the piles. This kind thinking “outside the box” is what impresses us most.

Birmingham’s engineering and construction personnel and equipment resources make you a leader in your field and we look forward to working on projects together in the future.

Sincerely,  
Concrete USL Ltd.

Marvin Applin, Project Manager
