Project Manger**

Reference: Keswick WPCP- Keswick ON

Dear Sir:

On behalf of Graham project team at Keswick Water Control Pollution Plant project, I would like to extend our appreciation to your firm's effort, commitment and service to design, install and inspect about 11000m of timber piles, sheet piling for two coffer dams including Tremie cap below water table level and shoring of clarifiers.

Your cooperation and professionalism throughout this very challenging project with extremely difficult soil condition helped Graham to overcome project schedule issues. Birmingham provided additional crew or equipments as required to move the schedule forward.

I was very pleased to work with your experienced team on this project and I am looking forward to working with you in near future.

Yours Truly,

Vahid Tabatabaei, P.Eng.
Project Superintendent
