RE: THE TOWNSHIP OF TINY / BASELINE ROAD BRIDGE REPLACEMENT

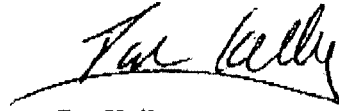

Atten: Andrew Weltz, P. Eng.

Dear Andrew:

We would like to take the time to compliment your firm on a job well done at the Tiny Township Bridge project. We noted that during the course of piling work on this project your firm completed the work in a very professional manner with good attention to layout and detail along with maintaining the project schedule. Last minute changes to the pile layout lengths were handled promptly with no hassle.

We look forward to working with Birmingham again on future projects

Yours truly

Pat Kelly
President
