To Whom It May Concern:

I am composing this letter as a testament to the exceptional professionalism and quality we experienced working with Bermingham on the Hwy 404 north extension project this past year. Their technical knowledge, aptitude, conscientiousness and productivity was above and beyond what we expected at the outset of the project, given the many logistical and terrain difficulties encountered. The project was completed without a hitch and Andrew Weltz, Bermingham Project Manager, was quick to respond to any concerns we brought forth throughout the project. His work ethic and quick thinking was refreshing in this ever-changing climate. As president of Four Corners Engineering Inc., I would not hesitate to recommend Bermingham Construction for any underground foundations or shoring type work.

Regards,

Adriano Marra, P.Eng., C.Eng.
President & General Manager
