Attn: Andrew Weltz – Project Manager

RE: McOrmond Drive Sanitary and Storm Sewer Trunks Project – Saskatoon, SK

Michels Canada would like to take the time to formally thank Birmingham for the efforts put forth on the above mentioned Project. Your team's dedication to the project along with your ability to perform difficult tasks necessary to the success of the project in challenging cold weather is a testament to the strong reputation your company is known for within the industry. Your assistance with the installation of piles needed for the tunneling launch and reception shafts were completed ahead of schedule and on budget.

Team work, cooperation, professionalism and a commitment to safety were displayed on all aspects of the project from planning to execution. These are all core values that Michels Canada shares with Birmingham and we look forward to new opportunities to work together. Should Birmingham require any future references for project please do not hesitate to call.

Sincerely,

Craig Vandaele
Project Manager
Michels Canada Co.
