600 Ferguson Ave. N  
Hamilton, ON L8L 4Z9

Subject: Port Consolidation Project

Attention: Mark Reinders and Brian Abele

The Oshawa Port Authority would like to take this opportunity to compliment Birmingham on a job well done.

Birmingham was the selected contractor for the Port Consolidation Project which consisted of the construction of a steel sheet pile dock after removal of a rubble breakwall.

Birmingham completed the project on time and at all times were professional and innovative even suggesting a money saving alternative to the original design. Birmingham staff interacted positively with the Oshawa Port Authority personnel in a very busy job site location in the Port.

The Oshawa Port Authority does not hesitate to recommend Birmingham in their future endeavours.

Sincerely,

Donna Taylor  
President/CEO, Harbourmaster
