## HAMMERS & VERTICAL TRAVEL LEAD SYSTEMS FOR LOCOMOTIVE CRANES

### History

Established in 1897, Berminghammer has for over a century been an accomplished leader in the foundation business. In the early 1960's the Canadian National Railroad approached Berminghammer about adapting their very successful Vertical Travel Lead design to a railroad application. Berminghammer agreed to retrofit one of the railroad cranes with a set of Vertical Travel Leads and a Berminghammer designed Diesel Pile Hammer. This venture was a great success and was adopted as the industry standard.

### Accessories & Innovations

- Adjustable Rear Gate Support
- Manual Swivel Gate
- Hydraulic Trip
- Operator Friendly Left Hand Gate
- Travel Box
- Chromed Bore
- Spotter Bleed Kits
- Fuel Tank Venting for better long term storage

### Trip Slot Cover:

### Hammer Cat:
